

Welcome to my website,

I am a Cuban-American independent, self taught intuitive visual artist. I am also a yoga teacher that has taught yoga to both children and adults. I like to create in different mediums such as oils, acrylics, digital art, photography, writing and video. I am also an author who has had two books published. Currently, I am working on my third book.

I continue to strive to move beyond the ordinary realms of creating art and writing. I like creating intuitive visual art and sharing it with an audience. I believe a community exponentially thrives when art is involved.

Thank you for visiting my website and actively supporting an independent visual artist by shopping.

Best,
Litana Visual Artist
